GRESHAM GROWN TIRED. Will Make No Further Efforts in the Scaling Business.

Washington, Feb. 22.—Secretary Gresham has decided he will make no further effort to induce Congress to pass the bill appropriating \$425,000 to pay damages sustained by British sealing vessels seized by our naval sealing vessels seized by our naval ships and revenue cutters in Bering sea before the making of the modus vivendi. If the bill fails now, then he will proceed immediately to draw up a treaty for submission to the Senate creating an arbitration committee to adjust the claims. The United States will have no other course open than this, for we should be dishonored among nations if we failed to carry out the orligations imposed upon us by our voluntary act in submitting the sealing question to the Paris arbitration.

The Paris arbitration tribunal ruled The Paris arbitration tribunal ruled out all claims for consequential damages and allowed claims only when the yessels had actually been seized and where the crows had been imprisoned; but even on this basis the claims amounted to nearly a million dollars. Besides, there were about two scoremen, officers and crews of the seized vessels, who suffered imprisonment, and their claims were compromised for about \$18,000,000 by the agreement made by Secretary Gresham.

The secretary believes if all these claims are submitted to a committee
